

Students of Biology/Botany from Manaus (Brazil) wanted!

Preserving our precious planet isn't only a lifestyle-choice nowadays, but a choice of whether we are willing to stand up for ourselves or not. Is earth worth it? Definitely!

At Fukuoka Biolab we want to help with the renaturation and reforestation of the rainforests and the wilderness in general.

Hence, why we need people like you!
Interested in our future and our nature,
willing to make a change.

Help us to help planet earth.

FUKUOKA
BIOLAB

a path to a
greener future

Helping our forests – Plant for the planet

We are a growing, future oriented company based in Austria, with employees all over our precious planet. Forests all around the globe are in danger due to fires, deforestation, and monocultures. Developing seedbombs, which are usable in infertile landscapes caused by humans. Achieving such a goal might a step in the right direction.

Which is why we are looking for interested people for our Seedbomb-Program.

Location: Manaus / Brazil

The Company: Fukuoka Biolab is eco-friendly and committing to our little blue planet.

- Our company started off small but is steadily growing.
- We believe in the future of our planet and technology side by side – working hand in hand.

The Position: We are looking for biologists and herbologists, who are willing to volunteer for the planet.

- We offer free working hours and a true impact on our world.
- We also offer a very friendly and open work environment.

Requirements:

- Training/Experience/finished or still ongoing apprenticeship in in the biology or botanic sector.
- Interest in our environment and saving our planet.

Responsibilities:

- Taking responsibility – not only for your job, but also for our planet.

Why Should You Apply?

- You have time leftover and want to do something good in it – our company is perfect for that.
- Work from everywhere, every time, every day or whenever you find the time – we do not want you to get worked over.
- Make an impact – now. Because now is the right time to do the next right step.
- Free working hours and a nice community.
